

Industrial V-Shaped Dry Coolers

Cooling capacity from 200 kW to 2500 kW

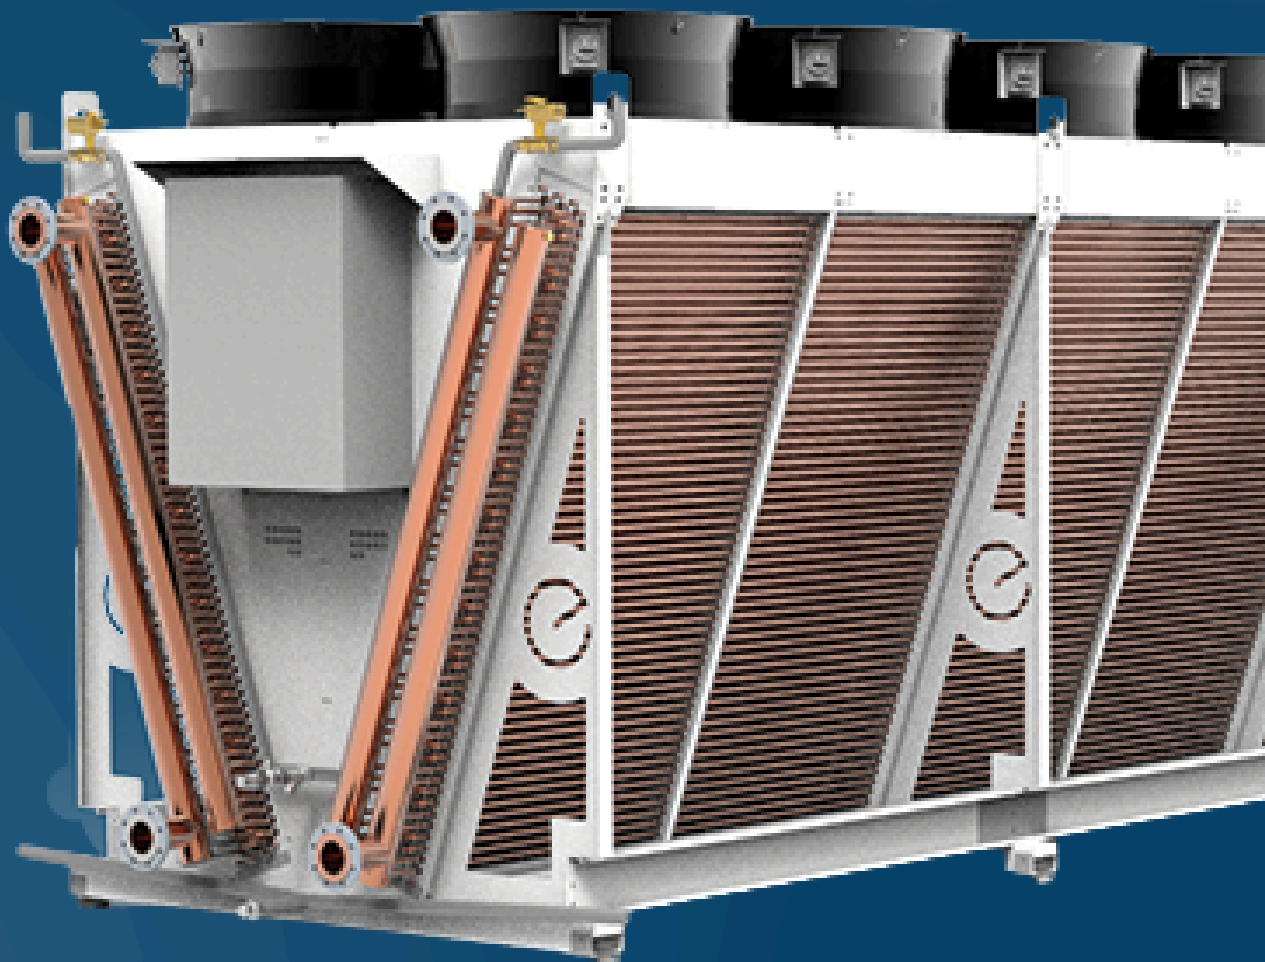

Industrial Design

Robust structure
verified through FEM
analysis

Reliability: Tested up to
90 bar burst pressure

*There's
more!*

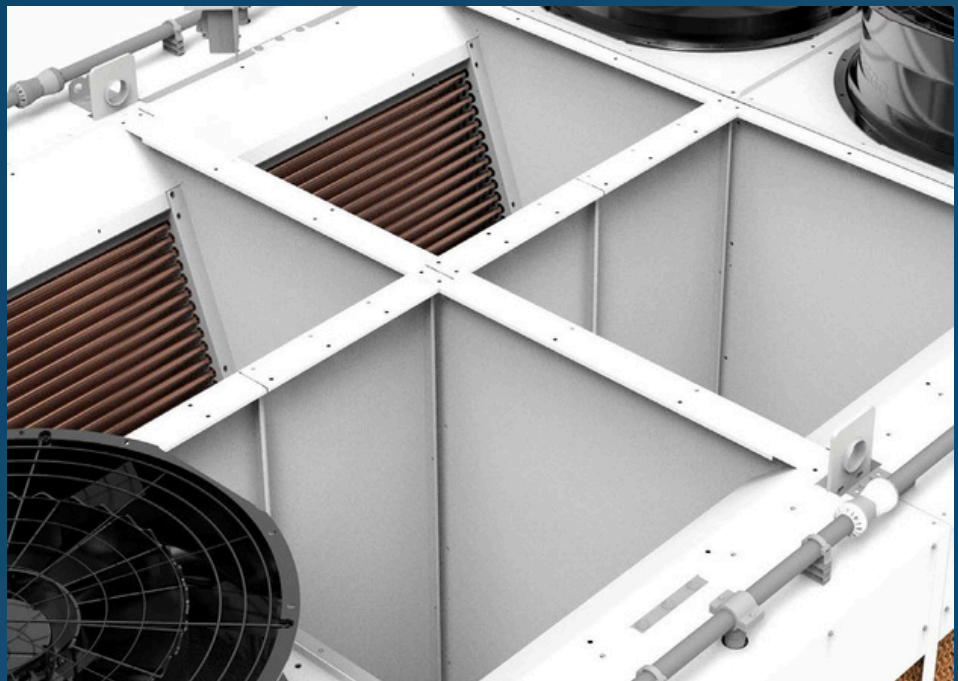

Industrial Design

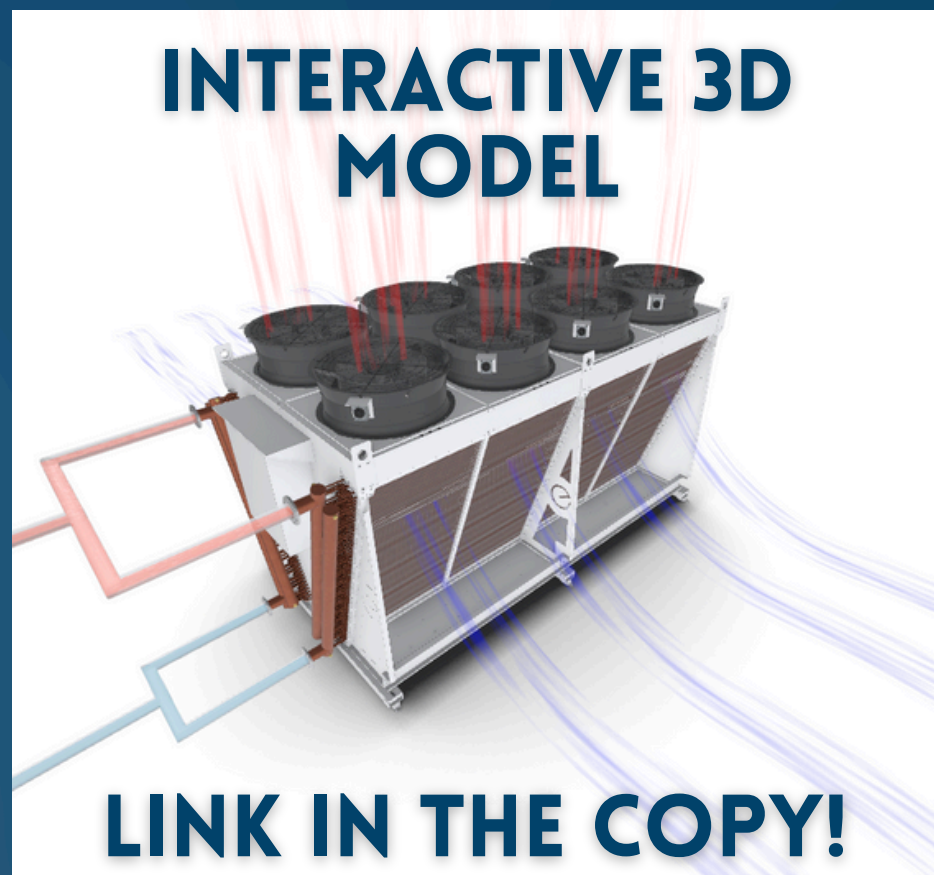

Industrial V-Shaped Dry Coolers

Cooling capacity from 200 kW to 2500 kW

Floating finned pack to protect tubes during transport and thermal expansion

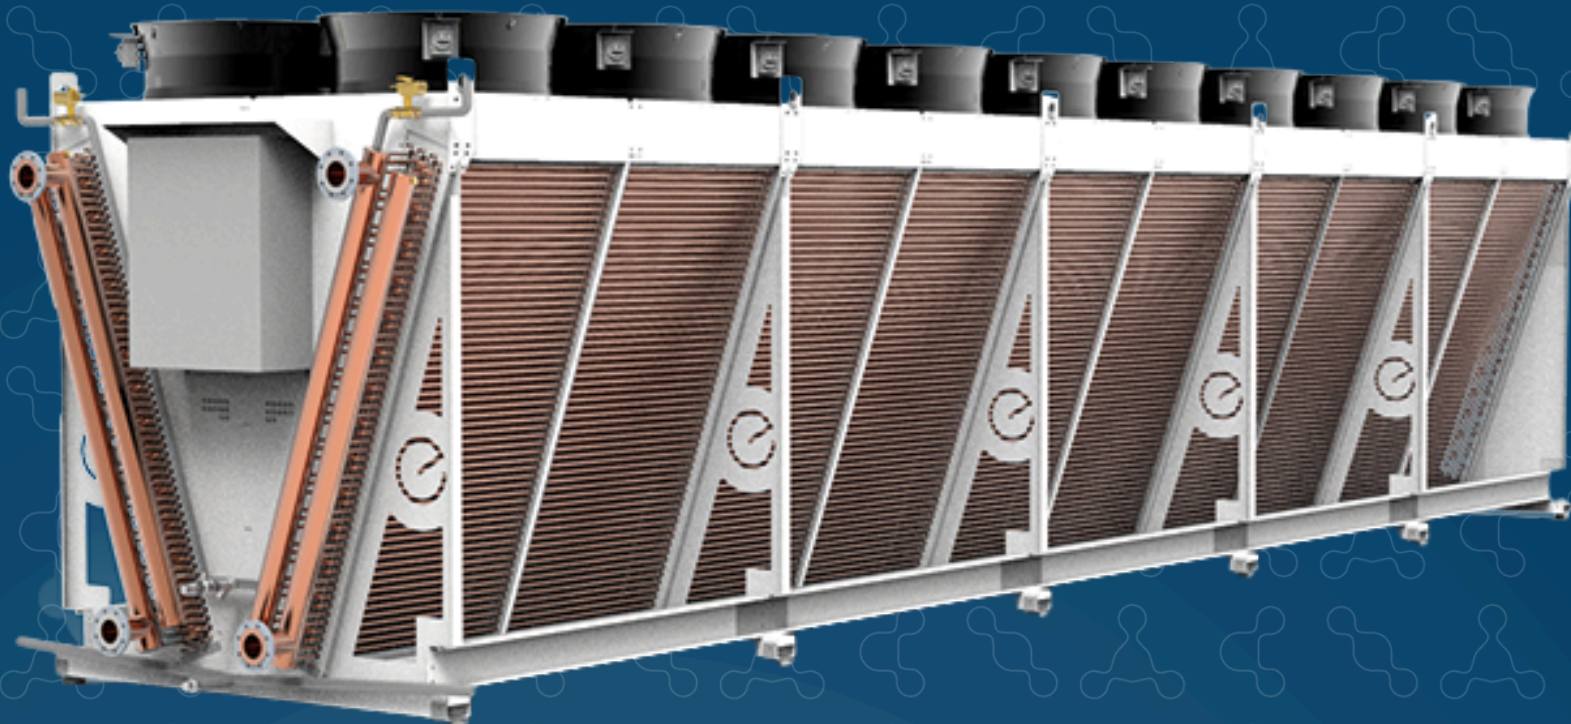

#Enexplore all the features and characteristics in the interactive video!

Industrial V-Shaped Dry Coolers

Cooling capacity from 200 kW to 2500 kW
